

GOOD NEWS

CITY OF SOUTH FULTON RESIDENTS!

The City of South Fulton is proud to provide its residents with Public Works Services!

Effective November 19, public works services will transition from Fulton County to the City of South Fulton.

The City will provide public works services to include road and highway maintenance, stormwater management, traffic operations and sanitation services.

City of South Fulton Residents will be able to select the vendor of their choice for sanitation and recycling services. Please see the back of this document for the list of vendors that have been qualified to provide sanitation services within the City of South Fulton.

Every residential household in City limits must arrange services with an authorized City sanitation vendor by November 30, 2018 and maintain continuous service thereafter. If you are currently receiving services from one of the listed providers, you do not have to make any changes or take any additional action. Failure to select an authorized sanitation service vendor may result in liens, fines and other penalties, as authorized by law.

Do you have questions about Sanitation Services?
Visit the City's website at www.cityofsouthfultonga.gov for FAQ's and answers.

For questions not listed in the FAQ's please contact the City of South Fulton at (470) 809-7700 or in person at 5440 Fulton Industrial Blvd. S.W. Atlanta, GA 30336.
